

### **Kelley Fox Wines Weber Vineyard Chardonnay 2023**

I'm thrilled to offer another vintage of Chardonnay from these self-rooted vines planted in 1983 from my Pinot noir blocks at Weber. I don't have enough fruit every vintage to be able to make this wine. The highest yield to date is only a half-ton, and it's so worth it! This Weber is a pale, transparent, pastel yellow. It has a creamy citrus nose with hints of vanilla with abundant oceanic/marine minerality and freshness. The mouth is mixed citrus but is more complex than that. The Weber 2023 is neither fat nor lean, and has disarming purity. There's a hint of brine and oyster shell. It's youthful, has racy acidity, and has a lovely texture and long finish. It needs time, and I can't wait to try this again in a year or two.

**Appellation:** Dundee Hills A.V.A.
